Suraksha

For Heavy Transport Vehicle

Suraksha - Heavy Transport Vehicle

SURAKSHA is a set of special training courses for commercial heavy vehicle drivers. Content and language of courses and materials have been designed according to the special needs of all heavy vehicle categories and target audiences, e.g. Bus, truck, tanker and other professional drivers,

The courses consciously incorporate a very high level of visual content like photographs, films, graphics and animation for maximum impact. They are conducted with a high degree of interaction and participation of trainees and tackle all levels of literacy and understanding in all major Indian languages.

An essential part of all programmes is our highly acclaimed "Safe Driving" manual and scan and teach methodology

Several modules of SURAKSHA are available from 1 day to 5 days, depending on how much time participants can spare and the legal requirements of each category and their interest in specific vehicle categories.

Driving assessment, demonstration drives and feedback / counselling are all optional parts of the SURAKSHA courses.

Each module is custom designed to meet the needs of specific user groups and could even include company specifics.

Requirements for good professional drivers have been included in SURAKSHA.

Many of India's leading companies,

several diplomatic missions and a variety of organisations ranging from NGOs to Government departments use SURAKSHA programs regularly to train their personnel in road safety and have reported a significant improvement in their safety records.

Course Content & Methodology

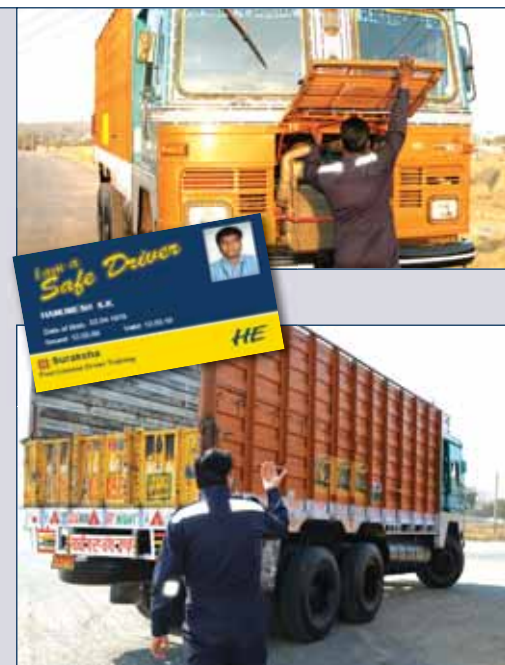

SURAKSHA courses consist of class-room theory, demonstration and practical sessions. The major topics covered are:

- Road markings and traffic signs
- Diverse road user behaviour
- Rules of the road incl. traffic laws
- Sharing the road, courtesy and etiquette
- Factors influencing driving – stress, alcohol and drugs
- Appropriate speed and following distance
- Driving under difficult and potentially dangerous conditions – weather, terrain, traffic, visibility
- Defensive driving incl. hazard perception, intersection approach, overtaking, braking
- Vehicle dynamics & handling driving emergencies
- Stress and fatigue management
- Preventive maintenance and vehicle check

- Accident related first aid and how to manage an emergency situation
- Special responsibilities of HTV driver
- Soft skills (on passenger handling, personal development)
- Load and safety

The courses employ a participative system using computer-based projection of audio-visual material developed specially for India.

The courses include pre and post course written tests/grading and, if desired, an on-the-road drive and a non-invasive medical examination to test suitability for driving. All successful participants are awarded a proficiency certificate that is highly prized in the industry.
