Suraksha

For Two Wheeler Riders

DELHI ■ MUMBAI ■ BANGALORE ■ HYDERABAD ■ CHENNAI ■ KOLKATA ■ VADODARA

Suraksha - Two Wheeler Riders

SURAKSHA is a set of special training courses for licensed drivers. Content and language of courses and materials have been designed according to the special needs of all vehicle categories and target audiences, e.g. executives, professional drivers, ladies, physically challenged personnel etc.

The courses consciously incorporate a very high level of visual content like photographs, films, graphics and animation for maximum impact. They are conducted with a high degree of interaction and participation of trainees and tackle all levels of literacy and understanding in all major Indian languages.

An essential part of the program is, that it emphasizes the vulnerability and limitations of a two wheeler rider, as nearly 30% of road fatalities accounts for the two

wheeler category. We have two modules of SURAKSHA which are available for 1 day or 2 days, depending on how much time participants can spare and their interest in specific vehicle categories.

Riding assessment, demonstration, rides and feedback/counselling are all optional parts of our training program

The course is designed for riders who already hold licenses for 2-wheelers (motorcycles and scooters/MTW), each module is custom designed to meet the needs of specific user groups and could even include company specifics.

Requirements for both, professional riders and individuals, who ride their own two wheelers, have been met in the training program.

Many of India's leading companies, several diplomatic missions and a variety of organisations ranging from NGOs to Government departments use these programs regularly to train their personnel in road safety and have reported a significant improvement in their safety records.

We let our products be judged by the companies that use them.

Course Content & Methodology

SURAKSHA Two Wheeler courses consist of class-room theory, demonstration and practical sessions. The major topics covered are:

- Road markings and traffic signs
- Diverse road user behaviour
- Rules of the road incl. traffic laws
- Sharing the road, courtesy and etiquette
- Factors influencing driving – stress, alcohol and drugs
- Appropriate speed and following distance
- Driving under difficult and potentially dangerous conditions – weather, terrain, traffic, visibility
- Defensive driving, hazard perception, (Riding posture, braking, intersection approach, overtaking,)
- Essential Safety equipment and clothing (helmet, shoes, jackets,)
- Preventive maintenance

- Accident related first aid

The courses employ a participative system using computer-based projection of audio-visual material developed specially for India.

Training aids include simulators.

The courses include pre and post course written tests/grading and, if desired, an on-the-road ride assessment

All successful participants are awarded a proficiency certificate that is highly prized in the industry.
